

## **#35 - POS "Communiqué"**

### **National Process Designated Drivers Drinks**

Effective immediately we are implementing a national process for drinks that your designated driver(s) are given.

Depending on the system you have at your bar, the following will be actioned:

Manual Cash Registrars: - management / staff will enter these drinks onto their Spoilage document, (management will signed and send to NPF).

POS system: – management/staff will enter this onto their Spoilage document and then management will enter all spoilage as “Waste Item” through back office system, print this report – sign and send to NPF.
