

**Communiqué #36 – Reports to send to NPF – REVISED/ Communiqué n° 36 – Rapports à envoyer aux FNP – RÉVISÉ**

Daily Consolidated Sales report – removes and replace with Daily Permanent Sales Report

**Daily consolidate Sales report** is not the proper report for the messes to be sending to NPF. The reason being, If your Point of Sales (POS) license is deactivated – you will be required to contact Posera to reactivate it, the grand total sales on this report will restart at 0.00. (I was just informed this). This report was created for another company.

**Daily Permanent Sales report**, this is the report that NPF requires. If the license is deactivated this will also be show on this report but your sales will continue to accumulate per day, which is what NPF likes to see.

If anyone is confused or has questions about my email please let me know and I will call you,.
