Control Monthly Reset of POS Systems

The following are steps to conduct a control monthly reset of your POS systems. (Good maintenance procedure).

Managers/Bar Supervisor should action once a month. (Part of your monthly processes).

Controlled monthly reset of your POS system

Normal shutdown of all POS systems,
(Using the proper Windows shutdown) as follows:

Sign out of the POS system(s),
Start – shut down
Wait 20 seconds and then power all back up.

Reminder: Never shut down your POS systems by a HARD shutdown – unless you are on the phone with Posera and they request this.
